

Workshop Evaluation

Thank you for taking the time to fill out this evaluation of the 2008 CFWSP Summer Academy. Your input is valuable and will help us improve further offerings.

To what extent did the workshop meet your needs in the following areas: [*please circle 'yes' or 'no' and check the most appropriate box.*]

1. Scientific inquiry and its importance in school science:

I already understood this adequately **Yes/No**

I gained valuable information	I gained some information	I gained no useful information

2. Resource needs for science education:

I already understood this adequately **Yes/No**

I gained valuable information	I gained some information	I gained no useful information

3. Uses of technologies for science education:

I already understood this adequately **Yes/No**

I gained valuable information	I gained some information	I gained no useful information

4. Generating lesson plans using inquiry for my own classroom.

I gained valuable information	I gained some information	I gained no useful information

4. Understanding the expectations of college STEM faculty regarding student preparation.

I already understood this adequately **Yes/No**

I gained valuable information	I gained some information	I gained no useful information

**Clark Fork Watershed Science Partnership (CFWSP)
Summer Academy 2008**

5. How would you rate this workshop compared to others you have attended?

Poor		Average		Excellent
1	2	3	4	5

Comments:

6. What would you do to improve this academy?

7. Do you plan to attend further workshops hosted by CFWEP?

8. What subjects would you most like to see covered in future workshops?

9. What topic did you find most valuable in this academy and how will you implement ideas gained from this academy?

10. Please rate your comfort level with presenting inquiry lessons in your classroom

Expert I will present inquiry wherever possible	Growing in confidence, willing to present inquiry	Novice, I am not sure I will present inquiry
